How to manage or delete cookies?

The use of cookies allows the Website to serve better, but you can prevent the use of cookies if you wish. However, please note that in this case, the site may not function fully and you may not be able to benefit from all its features. To prevent the use of cookies, you need to change the settings of your internet browser. These changes vary depending on the device and internet browser you are using. Below is information on what steps should be followed to prevent the use of cookies on different internet browsers.

Internet Explorer	**Safari**
1. Open the desktop and tap or click the Internet Explorer icon on the taskbar. 2. Tap or click the Tools button and Internet options. 3. Tap or click the Privacy tab, then move the slider up under Settings and tap or click the OK button to block all cookies.	1. Select Safari Preferences. 2. Click Privacy. 3. Click Website Data. 4. Select one or more websites, and then click Delete or Delete All. You can also delete all cookies left behind by the websites you visit through third party software.
Microsoft Edge	**Opera**
1. Click on the section with three dots in the upper right corner of your Microsoft Edge browser and go to the Settings section. 2. After selecting Select Items to Clean from the new window that appears,	1. Go to the "Preferences" section of your browser. 2. By selecting the "Advanced" section. You can edit cookies in the Cookies section.

select the sections you want to clean from the window that appears. 3. There are many sections here. You can start the cleaning process by selecting the one you want.	
Google Chrome 1. Open Chrome on your computer. 2. Click More Settings in the top right. 3. Click Advanced at the bottom. 4. Under "Privacy and security," click Content settings. 5. Click Cookies. 6. Under "All cookies and site data", search for the Website's name. 7. Click the "Remove" icon on the right of the site.	**Mozilla Firefox** 1. Click the Firefox Menu button and select Options. 2. Select the Privacy & Security panel and go to the History section. 3. Change Firefox to use custom settings for history. 4. Click the "Show cookies..." button. The Cookies window will appear. 5. In the search field, type the name of the site whose cookies you want to delete. Cookies matching your search will be displayed. 6. Select the cookie(s) you want to delete and click the Delete selected button 7. Close the Cookies window by clicking the Close button. Then close the about:preferences page

You can visit the privacy notice on www.bmsgeridonusum.com.tr to get information about your personal data processes, excluding cookies.
